

Spouse Success

There is no rest for success.

Congratulations, Rocio!

After working with an MSCCN Employment Specialist for 2 months, Rocio was hired by Humana.

Hiring Challenge: My resume was outdated, and I did not know how to format it properly. I did not know how to target my resume for the position I was applying.

Assistance Received: Mrs. Weakly reviewed my resume and made suggestions. She helped me target my resume for a position that I had been trying to get interview for the past 2 years. Mrs. Weakly did a fantastic job working with me and with her help I made my resume more professional.

Results of Assistance: With the help of my Employment Specialist, I was able to land an interview with an organization working from home and landed my dream job.

Value of Experience: I am grateful for the assistance that I received during my job search. It can be challenging to find your dream job when you are a military spouse, but my Employment Specialist made it seem obtainable.

We want YOU to be our next success!
