Spouse Success

There is no rest for success.

Congratulations, Elizabeth!

After working with an MSCCN Employment Specialist for 1 week, Elizabeth was hired by State of Texas Health and Human Services Commission.

Hiring Challenge: Finding leads on openings that were not with a temp agency. I was looking for a secure job with health benefits.

Assistance Received: I explained what I was looking for and was given excellent leads with job titles, along with links to follow through with those leads. I was called several times to check my progress and I was also sent emails with different links. The assistance I received was excellent and I was able to land my dream job!

Results of Assistance: I landed the job!

Value of Experience: I found Casey to be very understanding to me, a former military spouse. I told her I needed a job with longevity, as I'm no spring chicken. She understood I needed health insurance, retirement, and competitive pay. She sent me links with State jobs. She was on top of things! Amazing job!

We want YOU to be our next success!
